TECHNICAL SKILLS

Java Programming (Basic)

Familiar with HTML and CSS

Introductory SQL and database management

Some experience with Git

SOFT SKILLS

Resourcefulness

Communication

Adaptable

Time Management

EDUCATION

Bachelor of Engineering
St Xavier's Catholic College
2021 - 2025

School
Victory Matriculation School
2019-2021

LANGUAGES

Tamil

English

PROFILE

As an aspiring technology professional, I possess a strong desire for independence and a deep passion for the tech industry. I am committed to acquiring foundational skills across diverse domains, including software development, cybersecurity, and system management. I excel in challenging environments and consistently demonstrate composure under pressure. Driven by a motivation to explore innovative concepts and emerging technologies, I am seeking an opportunity to enhance my technical expertise and contribute to impactful projects while gaining valuable hands-on experience.

INTERNSHIP EXPERIENCE

Library Management Application

Concept Solutions – Trivandrum June 2024-July 2024

Project Overview:

- Developed a library management application using Core Java to manage books, staff, and members.

Collaboration and Design:

- Worked with fellow interns to gather requirements and design a user-friendly interface, sharing updates via GitHub.

Key Features:

- Implemented functionalities for book inventory, staff operations, and member accounts.

Version Control:

- Used Git for code management and collaboration.

Testing and Quality Assurance:

- Conducted testing and debugging to ensure application reliability.

PROJECTS

Basic Calculator

- Developed a simple calculator application
- Implemented basic arithmetic operations (addition, subtraction, multiplication, division) with a user-friendly interface.

Movie Streaming App

- Created a movie streaming application using Spring Boot, React, and CSS.
- Designed and implemented a RESTful API with Spring Boot to handle user authentication and movie data retrieval.
- Utilized MongoDB as the database to store user and movie information, ensuring efficient data management.
- Integrated with Compass Atlas for seamless database connection and management.
- Developed an intuitive front-end interface with React to enhance user experience and engagement.
